

8 / 9.9 FourStroke

Still the lightest in their class

Mercury's 8-9.9hp FourStrokes are still the lightest in their class, but being lightweight doesn't mean cutting corners. Our 8-9.9hp FourStrokes feature a convenient multifunction tiller handle that provides easy one-hand shifting operation. Furthermore, these outboards come equipped with our exclusive automatic reverse hooks that don't require you to change a clumsy lever manually to hold the engine in place while reversing.

Thanks to the Mercury multifunction tiller handle, standard on 8-9.9hp tiller handle FourStroke models, you have the boat control needed to fish all day with ease. This revolutionary, all-in-one handle design delivers one-handed operation for shifting, stopping, throttle control, tilting and steering. Giving you unrivaled manoeuvrability and making your time on the water easier and more enjoyable.

The 8-9.9hp Mercury FourStrokes feature an ingenious design that allows the boater to use the longer, sturdy tiller handle to gain leverage on the outboard and engage our exclusive 3-position ratcheting trim system. By pushing down on the tiller handle you can set the trim position. Simply, easily, every time.

LIGHT ON WEIGHT, HEAVY ON FEATURES

HP	Disp (cc)	Engine type	Dry Weight*
9.9	208	Inline 2	38 kg
9.9 CT	208	Inline 2	40 kg
8	208	Inline 2	38 kg

**Lightest model available*

Total tiller control

Tiller-steered versions feature the exclusive Mercury **multifunction tiller** that puts shifting, throttle control (with friction for fine-tuned trolling), stopping, tilting and steering in the palm of your hand.

Reliable starts

A refined fuel system delivers consistent, easy and reliable starting quality and operation. Enhancements have also been made to the cold starting procedure by incorporating a three-position choke system and an ignition timing change improved trolling speed operation.

Defining durability

The gearcase is engineered to be rugged and durable, with **robust gears and bearings** and a **heavy-duty skeg**.

Power tilt

The fastest power tilt in the industry drops a Mercury 9.9hp FourStroke outboard into the water in just five seconds. Exclusive centreing straps (optional) align and secure the outboard in full tilt-up position while you're underway.

More thrust

Mercury Command Thrust outboards feature a deeper gearcase and a four-blade, high-thrust propeller with matching gear ratio – the perfect setup for trolling and precise control in all conditions.
